EDUCATION

RITHM SCHOOL, SF
FULL STACK ENGINEERING
Jun-Sep 2018

UC DAVIS
B.S. VITICULTURE &
ENOLOGY
2011 - 2015

KEY SKILLS

JavaScript (ES6)

jQuery

React (Redux)

React Native

Python

Flask

Node.js

Express

PostgreSQL

HTML & CSS

PROFESSIONAL PROFILE

I am a full stack software engineer with a passion for creating practical, meaningful products. I have a strong background in food, wine, and agriculture and I hope to use my experience to build and contribute to novel applications.

EXPERIENCE

MOBILE ENGINEER INTERN

Groupmuse / San Francisco, CA / Aug 2018

Worked in pair-programming environment on a six-person team for four weeks developing a React Native iOS mobile application under supervision of CTO.

- Implemented a key multi-step guest reservation feature in the React Native application to increase user engagement.
- Consumed RESTful API's to implement CRUD functionality on the application's reservation system.
- Used Storybook.js to create self-documenting components in isolation.
- Implemented feature for subscription membership using Redux and calculated reservation payment based on user membership status.
- Refactored existing components to minimize code duplication and styled screens to design specifications.

VINEYARD SUSTAINABILITY COORDINATOR

Benziger Family Winery / Glen Ellen, CA / 2016-2017

Biodynamic Winery in Sonoma Valley producing premium-quality Bordeaux-style wines.

- Collected and analyzed vineyard data to monitor vine growth and fertility status.
- Managed greenhouse and insectary gardens, including propagation, irrigation, fertilization and pest control.

CO-FOUNDER/MANAGER

Green Almond Farm / Winters, CA / 2014-2016

Organic vegetable farm marketing to high-end Bay Area restaurants.

- Managed crop production for 1.5 acres of certified-organic vegetables.
- Led produce sales to Bay Area restaurants and managed customer relations.
